

# Post-Purchase Survey Insights

A per-question, visual read-out of what customers told us — prepared for **10X ROAS** to build new ad concepts.

|                         |           |                          |
|-------------------------|-----------|--------------------------|
| 22,160 survey responses | 9 surveys | Periods: 2025 – May 2026 |
|-------------------------|-----------|--------------------------|

**Privacy:** all personal data (names, email, phone, address) and all money/order data (spend, order totals, coupon codes, Shopify IDs) were removed before analysis. Open-text answers were scanned and contain no contact details. Themes labelled "auto-grouped" are keyword-clustered from free text and are directional, not exact.

## The big picture

- **One message wins everywhere.** Non-toxic / PFAS-free is the #1 driver in every survey that asks (68–76%), and it is the exact phrase customers use unprompted when describing us to a friend.
- **The enemy is failing, toxic non-stick.** Their top frustration is old coating wearing off (41%) layered with health worry (27%). Position against that, and against stainless steel — the alternative they compare us to most (41%).
- **Price is the one real objection.** It is the biggest hesitation (55%) and the top reason they almost didn't buy (27%); ~47% call us "overpriced". Justify with lifetime value, not discounts.
- **Meta drives discovery; consideration is short.** Instagram + Facebook = ~80% of how people find us, and 38% buy on the same day they discover us. The ad has to hook and convert fast.
- **Show the egg.** Eggs/breakfast is the #1 thing they're excited to cook — the classic no-oil non-stick test. Steak and fish follow. Build demos around these.
- **High intent.** 60% were actively searching for non-toxic cookware before finding us — sell the solution, not the problem.

## 1. Compare & Hesitation

2025 · 8,905 responses

### Who is this purchase for?

8,885 answered · multiple-choice

**Read:** Mostly self-purchase (69%), but ~1 in 5 buys as a gift.

■ **Gifting is a real secondary angle — worth a seasonal/gift-set creative.**

### Which options did they seriously compare before choosing Siraat?

6,792 answered · multiple-choice

**Read:** Stainless steel is the #1 alternative they weigh us against (41%), then ceramic & cast iron.

■ **Run direct comparison creative vs stainless steel.**

### What almost made them hesitate? (open text, auto-grouped)

4,843 answered · open text, auto-grouped into themes

**Read:** Price is the dominant hesitation (55% of those who answered).

■ **Lead with cost-per-year / lifetime value; surface payment options.**

## 2. Experience & Price

2025 · 479 responses

### What product did they buy?

467 answered · multiple-choice

**Read:** The Hammered Pan Pro is the clear hero (71%).

■ **Anchor most creative on the hero pan; bundles are upside.**

### Why did they buy this?

246 answered · multiple-choice

**Read:** Avoiding PFAS / microplastics is the top reason (44%), plus titanium benefits.

■ **Health-first hooks beat feature-first.**

### Shopping-experience rating (1-5)

349 answered · multiple-choice

**Read:** 88% rate the experience 4 or 5 out of 5.

■ **Strong satisfaction — usable as social proof.**

## Where did they find us?

351 answered · multiple-choice

**Read:** Instagram + Facebook drive ~81% of discovery.

■ **Meta is the primary creative engine.**

## Would they recommend us? (open, auto-grouped)

183 answered · open text, auto-grouped into themes

**Read:** Overwhelmingly positive intent to recommend.

■ **Lean into referral and UGC.**

## What do they think about the price?

152 answered · multiple-choice

**Read:** Opinion splits almost evenly — ~47% feel it is overpriced.

■ **Price justification is essential in-ad and on the PDP.**

## 3. Reason & Frustration

2025 · 798 responses

## Main reason + biggest frustration with old cookware (open, auto-grouped)

776 answered · open text, auto-grouped into themes

**Read:** Coating/non-stick wearing off (41%) and toxicity worries (27%) are the core pains.

■ **"Your old non-stick is both failing and toxic" is the wedge.**

## What else would they like us to offer? (open, auto-grouped)

412 answered · open text, auto-grouped into themes

**Read:** Strongest pull is for more titanium cookware (44%) — pots, sets, bakeware.

■ **Demand signal for range expansion.**

## What do they value most when cooking?

592 answered · multiple-choice

**Read:** Health & safety dominates at 76%.  
■ **Toxin-free is the core promise, not a side benefit.**

## 4+5. Chefs & Meals

2025 + 2026 · 1,638 responses

## What matters most when choosing new cookware?

1,547 answered · multiple-choice

**Read:** Non-toxic / PFAS-free is #1 at 68%.  
■ **Same north star across every survey.**

# Favourite chef / cooking influencer (top named mentions)

1,638 answered · top named mentions

**Read:** Jamie Oliver and Gordon Ramsay lead the named mentions.

■ Useful tone/voice & potential creator references.

## Favourite meal (open, auto-grouped)

1,318 answered · open text, auto-grouped into themes

**Read:** Steak/beef, fish and eggs are the meals they care about most.

■ **Feature these foods in demos.**

## 6. Awareness & Priorities

2026 · 3,859 responses

### How long did they know us before buying?

3,815 answered · multiple-choice

**Read:** 38% "found you today" — a large share buys on first contact.

■ **Short consideration window — hook + offer in the ad must do the heavy lifting.**

## Who are they purchasing for?

2,850 answered · multiple-choice

**Read:** ~7-8 in 10 buy for themselves; partner/family is the rest.

■ **Self-use is primary; partner safety is a secondary angle.**

## What is most important for them?

3,358 answered · multiple-choice

**Read:** Toxin-free cookware is #1 (~70%), then effortless non-stick.

■ **Toxin-free headline, non-stick as the proof/demo.**

## 7. Discovery & Excitement

2026 · 716 responses

## How did they first hear about us? (open, auto-grouped)

707 answered · open text, auto-grouped into themes

**Read:** Meta (Facebook + Instagram) is where most first hear of us.

■ **Confirms Meta-led discovery in customers' own words.**

## One thing they would tell a friend (open, auto-grouped)

465 answered · open text, auto-grouped into themes

**Read:** When unprompted, "non-toxic / PFAS-free" is the single thing they repeat.

■ **That phrase IS the message — use their words verbatim.**

What are they most excited to cook first? (open, auto-grouped)

427 answered · open text, auto-grouped into themes

Read: Eggs/breakfast is #1 (the classic non-stick test), then steak.  
■ "Fry an egg, no oil, nothing sticks" is the demo they want to see.

8. Home Cook & Objections

2026 · 3,733 responses

Which statement best describes them as a home cook?

3,678 answered · multiple-choice

Read: 60% were actively searching for non-toxic/PFAS-free cookware.  
■ High-intent, problem-aware audience — sell the solution, not the problem.

# What almost stopped them from buying?

3,060 answered · multiple-choice

**Read:** Price (27%), then size/which-product confusion (15%) and "does titanium really work" (15%).

■ **Handle price, add sizing guidance, and prove performance.**

## 9. Find & Priorities

2026 · 2,032 responses

## Where did they first find us?

1,964 answered · multiple-choice

**Read:** Here Google leads (42%) alongside Instagram & Facebook.

■ **Search intent exists too — not only paid social.**

## Who are they purchasing for?

1,553 answered · multiple-choice

**Read:** ~7-8 in 10 buy for themselves; partner/family is the rest.

■ **Self-use is primary; partner safety is a secondary angle.**

# What is most important for them?

1,675 answered · multiple-choice

**Read:** Toxin-free cookware is #1 (~70%), then effortless non-stick.

■ **Toxin-free headline, non-stick as the proof/demo.**

## Verbatim pulls — customer language for hooks & copy

Raw, lightly de-duplicated. Use as headline / hook starters.

### One thing they'd tell a friend about Siraat
