

S I R A A T

100% pure titanium cookware. Free from PFAS, BPA and toxins. Made for those who love to cook.

**COOK WITHOUT COATINGS.
COOK WITHOUT COMPROMISE.**

Brand at a glance

Everything on this page is the short version. When in doubt, come back here.

WHO WE ARE

Siraat's Kitchen is a titanium cookware brand built by Dutch founders and sold primarily in the US, Australia and the UK. We started with titanium cutting boards, grew into a full cookware line, and passed 100,000+ customers in just a bit more than a year.

One material is the whole idea: 100% pure titanium. No non-stick coatings, no PFAS, no BPA - and no trade-off on searing, even heat or cleanup.

POSITIONING STATEMENT

For health-conscious home cooks who refuse to choose between non-toxic and high performance, Siraat's Kitchen makes pure titanium cookware that outcooks and outlasts coated pans - backed by a lifetime warranty and a 100-day trial.

THE ONE-LINER

**Cook without coatings.
Cook without compromise.**

FAST FACTS

100K+

happy customers

Lifetime

warranty on cookware

100 days

risk-free home trial

Free

shipping on all orders

AUDIENCE

Health-conscious home cooks (25-55), meal-preppers, young families and food creators. They read labels, cook most nights, and will pay premium for something they trust to last. English-speaking markets: US first, then AU and UK.

Our story & mission

The narrative behind the products - use it in welcome flows, About-us moments and founder-style emails.

THE STORY

Most 'non-stick' cookware is a coating with a countdown. It scratches, it wears, and what wears off ends up in food. We built Siraat's Kitchen around a different answer: skip the coating entirely.

Pure titanium with a hammered surface releases food naturally, sears like steel, and cannot shed a coating - because there is none. That is the whole pitch, and it is why customers describe throwing out their old pans within a week.

We are founder-led and product-obsessed: new pieces ship when they earn a place in a real kitchen, not to pad a catalog.

MISSION

Make non-toxic the default in every kitchen - without asking anyone to give up performance.

BRAND VALUES

- **Purity over shortcuts**
One material, zero coatings. If it needs an asterisk, we do not make it.
- **Performance is the proof**
Health claims get attention; searing, even heat and 30-second cleanup close the sale.
- **Built for life**
Lifetime warranty, 100-day trial. We would rather repair a relationship than churn a customer.
- **Honest by default**
Real prices, real deadlines, real reviews. Trust is the growth engine.

Messaging pillars

Every email, SMS, popup and ad should lead with one of these four. Rotate them; never stack all four in one asset.

NON-TOXIC, FOR REAL

Free from PFAS, PFOA and BPA. No coatings to scratch off into food. The claim that opens the door.

Lead for: cold audiences, quiz popup, welcome flow.

PURE TITANIUM PERFORMANCE

100% pure titanium, 3-ply build, hammered release surface. Restaurant-level sear, even heat, 30-second cleanup.

Lead for: comparison content, product pages, retargeting.

BUILT FOR LIFE

Lifetime warranty, 100-day trial, free shipping. A buy-once brand in a replace-it-yearly category.

Lead for: objection handling, cart/checkout flows, post-purchase.

MADE FOR PEOPLE WHO LOVE TO COOK

Real meals, real kitchens: steak and eggs, tofu that will not stick, pizza night upgrades. Joy, not fear.

Lead for: campaigns, recipes, community and UGC moments.

APPROVED CLAIMS (USE VERBATIM)

"100% pure titanium" · "Free from PFAS, BPA and toxins" · "No PFAS, PFOA, or BPA" · "No coatings" · "Lifetime warranty" · "100-day trial" · "Free shipping on all orders" · "100K+ happy customers" · "Anti-microbial" (cutting board only) · "3-ply" (Pan Pro line only)

Avoid: medical or disease claims, 'doctor recommended', attacks on named competitors, and vague superlatives ('world's best'). Precision is the brand.

Voice & tone

Plain-text, founder-style emails have outperformed designed campaigns 2-3x for this brand. The voice is the strategy.

1. Direct over decorated

Write like a founder emailing a friend. Short sentences. One idea per paragraph. A plain-text email with a clear point beats a polished template.

2. Story first, sell second

Educate on the why (what coatings are, why titanium) before the ask. The dishwasher-sheets flow teaches for 10 days before it ever soft-sells. That patience is on-brand.

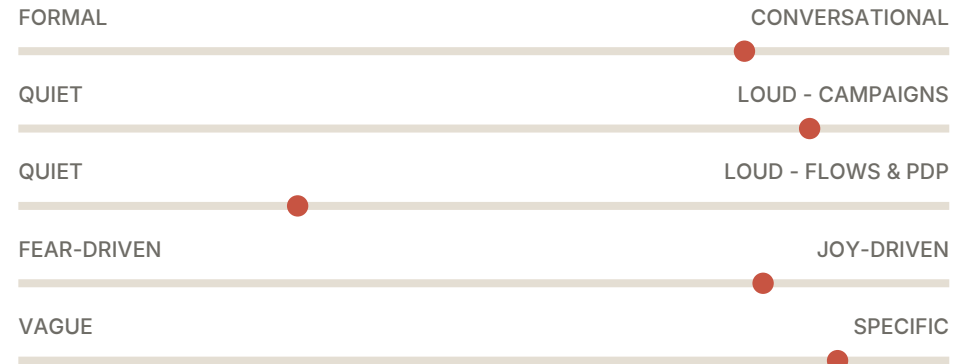

3. Specific beats superlative

Say "cleanup is 30 seconds", "seared golden, released clean". Concrete detail is our proof. Superlatives are earned, not sprinkled: "our biggest sale ever" ships because it is.

4. Loud, but always true

Campaigns go big: caps, emoji, countdowns, MEGA energy. The one rule that survives the volume: every number, deadline and compare-at is literally real. If it needs an asterisk, it does not ship. (See page 10.)

tone sliders

THE TWO REGISTERS

Campaign register - LOUD

Sale names in caps ("SIRAAT BIRTHDAY SALE"), emoji welcome (fire, cake and gift are already live), real countdowns, exclamation marks, superlatives that are true. Home: announcement bar, promo emails, SMS blasts.

Product register - calm

Sentence case, middot specs metric-first ("Cooking surface · 0.5 mm pure titanium"), numbers over adjectives ("Oven safe to 548°C / 1000°F"), no exclamation marks. Home: PDP, education flows, post-purchase.

Shared discipline across both: real numbers, real deadlines, and specifics doing the persuading.

Copy: what fits our brand

All drawn from live site copy and customer reviews - calibrate new work against these.

- "SIRAAT BIRTHDAY SALE · 50% off ends in 02:43:00" - caps, cake emoji and a countdown to a real end time.
- "Our biggest sale ever. Not even Black Friday comes close." - a superlative that happens to be true.
- "A complete PFAS-free kitchen in one decision."
- "I threw out all my old pans after a week. Cleanup is 30 seconds." - Thomas H., verified
- Spec lines with middots, metric first: "Cooking surface · 0.5 mm pure titanium".
- Subject: "The coating your pan is hiding from you"
- PS - Your 100-day trial starts the day the box arrives, not the day you order.

Rule of thumb: if a line could appear in any generic DTC brand's email, sharpen it until it could only be ours.

Color

Every value below is live on siraatskitchen.com - read from theme settings and the PDP stylesheets, 16 Aug 2026.

TEXT RAMP

Ink #272727 · headings, add-to-cart	Body #4A4A4A · body copy, links	Meta #8A867E · labels, stock line	Strike #9B978F · compare-at prices
---	---	---	--

SURFACES

White #FFFFFF · page ground	Panel #F6F4F0 · section panels	Policy #FCFAF6 · policy, stock alert	Warm #F7F2EC · delivery bar	Hairline #E4DED3 · every 1px border
---------------------------------------	--	--	---------------------------------------	---

ACCENTS - ALL CONFIRMED LIVE

Terracotta #C75442 · THE brand red	Promo Red #AC1A1A · announcement only	Forest #2E4035 · theme primary	Gold #B8892B · review stars	Espresso #321E1E · sold-out badge	Success #168342 · in-stock states
--	---	--	---------------------------------------	---	---

Buttons: the button customers actually press is Ink #272727 (the PDP stylesheet overrides the theme's Forest with !important). Email CTAs follow the live site: Ink buttons, white label.

The red rule: six reds are live on the site today - that is drift, not a system. Canon going forward: Terracotta for savings, badges and stars; Promo Red for the announcement bar only. Never a seventh red.

VERIFIED - LIVE THEME

Sources: settings_data.json + siraat-v2/v3-pdp.css + product templates, read 16 Aug 2026. The colour names (Ink, Terracotta, Forest, Promo Red) are coined in this document - the theme stores only hex values. Component-level audit in the companion PDF.

Typography

Inter carries the entire brand - verified from the live theme. This document is set in Inter.

DISPLAY / HEADLINES

Inter SemiBold (600). Theme: letter-spacing +1.5, line-height 1.1; heading_font_size_factor 0.6 scales the whole ramp.

Subheads carry one benefit, never two.

Subhead - Inter SemiBold, a flat 14px (subheading_font_size), independent of the heading above it.

Body is Inter Medium (500). The site runs it small and airy - 13px with a roomy 1.8 line height. Short paragraphs, left-aligned; secondary links sit in body grey #4A4A4A. This paragraph is the live specimen; email sizing lives under Proposals.

CTA BUTTONS: INTER, 16PX, LS +3 -> "ADD TO CART" · "SHOP NOW"

Price styling: Bold (700), proportional figures. Real compare-at prices only (page 10).

TYPE SYSTEM (LIVE THEME VALUES)

Headings	Inter SemiBold (600) heading_font: inter_n6 - ls +1.5, lh 1.1
Body	Inter Medium (500) text_font: inter_n5 - 13px desktop, lh 1.8
Subheads	Inter SemiBold, 14px flat subheading_font_size: 14
Buttons	Inter, 16px, ls +3 button_text_font: body
PDP override	siraat-v2/v3-pdp.css Restates sizes with !important - the product page wins

VERIFIED - LIVE THEME

Inter is served by Shopify's font service (handles inter_n5 / inter_n6), weights 400-700 live. Two exceptions to clean up: heading_italic_font is a generic sans (sans_serif_n4) and the review link hard-codes system-ui. Sources: settings_data.json · templates custom_css.

PROPOSALS - NOT THEME VALUES

Email standard: body 15-16px, lh 1.6; fallback stack Helvetica, Arial, sans-serif. Tabular figures for price columns would be an upgrade. Inter weights (Regular-Bold): add to Drive > Brand Assets > Fonts (folder to create); also free on Google Fonts (SIL OFL).

Logo & photography

The mark is a geometric monogram; the lockup pairs it with the SIRAAT wordmark. Photography does the emotional work.

PRIMARY LOCKUP

The mark stands alone at small sizes - favicon, social avatars, packaging stamps. Files: Drive > Brand Assets > Logos (master PDF).

- Black or Ink #272727 on light grounds; White on Ink, Forest or Espresso. Never in a red.
- Clearspace: the height of the S, all sides. Minimum width: lockup 140px, mark 24px.
- Store header renders the SIRAATSKITCHEN wordmark; in copy the brand is "Siraat's Kitchen"; products take "Siraat" or "Titanium".
- Never stretch, recolor outside the palette, add effects, or set on busy photo areas.

PHOTOGRAPHY & CREATIVE DIRECTION

Real kitchens, real meals

Steak and eggs, crepes, stir-fry, pizza night. Food mid-cook beats sterile packshots.

Macro texture

The hammered surface is the signature - shoot it close, in raking light.

Warm materials

Cherry wood, linen aprons, natural daylight. Calm, premium, lived-in.

People with personas

Caption faces like reviews: "Minseo - healthy home cook". Proof, not stock.

UGC energy for ads

Handheld, first-person, AI-assisted video is on-brand for paid; polish lives on the site.

Design details & known drift

The tokens that make things feel like Siraat - and the inconsistencies to resolve before BFCM, not repeat.

DESIGN TOKENS (LIVE)

Radii

Buttons 4px · inputs 30px · pills 100px · size tiles 9px · icon tiles 8px. Not a scale - per component, on purpose.

Hairline

1px #E4DED3 on every border; #C9C2B4 on hover. The quiet signature of the whole UI.

Grid

Container 1300px, one breakpoint at 1000px. Icons stroke 1.3; modals blur 12px.

Announcement bar

Promo Red ground, white text, promo-then-trust rotation: "FREE SHIPPING | FREE RETURNS | 100-DAY TRIAL".

Stars

Gold #B8892B, 2px letter-spacing. Ratings read "4.8 · 3,281 reviews" - hard-coded across all four product templates.

KNOWN DRIFT - DECIDE, THEN RETIRE

- Six reds in live use, plus a stray brown. Canon (our decision): Terracotta + Promo Red; retire the rest as pages get touched.
- Three "primary" buttons (theme Forest, scheme red #C74242, PDP Ink). Standard: Ink - align new pages to it.
- Stars: gold in the PDP stylesheet, red in template CSS - where one row mixes #C75442, #C87164 and brown #794421. Pick gold; retires three values at once.
- Two stock-alert styles across templates; unreadable schemes (white on cream) and duplicates in the theme editor - clean up.
- PDP stylesheets override theme settings with !important: changing the theme editor may do nothing on product pages.

Rule for new work (email included): build to the canon on these pages, not to whichever drifted value a screenshot happens to show.

Products, offers & guardrails

How we merchandise - and the lines we do not cross.

PRODUCT ARCHITECTURE & NAMING

HERO	12-Piece Cookware Set - "A complete PFAS-free kitchen in one decision." The Q4 push.
ANCHOR	Complete Edition / premium bundles - price anchors that make sets look obvious.
CORE LINE	Titanium Hammered Pan Pro (Mini / Small / Standard / Large), Wok, Deep, Crepe, Roasting, Pizza Steel.
EXPANSION	Cutting Boards (anti-microbial), Aprons (Moss/Ember/Oak/Azure), Mills, Utensils, Accessories.
SUBSCRIPTION	Dishwashing Detergent Sheets - the recurring-revenue story; educate first, soft-sell at ~day 10.

Naming: Title Case, material first ("Titanium Hammered..."), size as suffix. Never abbreviate to "Ti" or "SK".

OFFER ARCHITECTURE

- Evergreen hero: 41% off + free mystery gift. Deeper cuts are campaign moments, not the baseline.
- Bundle-first: gift-with-purchase on sets (high perceived value, controlled COGS) over blanket discounts.
- Tiered "buy more, save more" to lift AOV toward the \$400-500 set economics.
- Subscription: 20% off dishwasher sheets, offered only after the education flow has run.

HARD GUARDRAILS (FTC & TRUST)

Compare-at prices only when genuinely charged (cleaned up in 2026 - keep it that way). No fabricated countdowns or fake scarcity. No hidden-text deliverability tricks without explicit sign-off. Value framing over ever-deeper discounts.

Assets, files & approvals

Where everything lives and who signs off.

DRIVE STRUCTURE (SIRAATS KITCHEN - EXTERNAL)

VERSION

v1.4 - August 17, 2026. Timeline: 100K+ customers in just a bit more than a year. Voice examples page rebuilt as what-fits-our-brand. Verification pass of 16-17 Aug fully applied.

One material. No coatings. No compromise.

If an asset would not feel at home next to that sentence, it is not ready.
